

Prospect

The purpose of education is to help every child fulfil their dreams. In the spirit of holistic education, the courses will focus on developing core competence. With the vision of “accomplishments for every child - nurture by nature and lifelong learning,” students are encouraged to “take the initiative, engage the public, and seek the common good.” Schools will design courses based on life itself, and students will be “nurtured by nature.” They will acquire sound development both mentally and physically, and their potentials will be fulfilled

according to their aptitudes. Eventually, they will apply what they have learned, fulfil their responsibilities, and become lifelong-learners who will improve their own lives and lives of the community as a whole.

In the future, the MOE will continue to formulate education policies and work with schools and local governments as partners so as to align policies with practical needs in classrooms, ensure the implementation and effectiveness of education policies, and promote the innovation and development of education in Taiwan. ■
